Daubrite® VCI Wire

Product Description

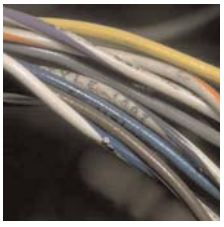
Daubrite VCI Wire is designed to prevent corrosion inside closed metal tubing, pipes, conduits, barrels, and cylinders during storage and shipment. The protective vapors emitting from the wire strip volatize inside the space to form an invisible layer on the surface of the metal and prevent moisture, salt, dirt, oxygen and other contaminants from depositing on the metal and causing corrosion.

Corrosion Protection

Protects cylindrical-shaped spaces up to 6” diameter for 24 months.

Features

- Protects hard-to-reach metal surfaces inside components and finished machinery.
- Proven Daubert Cromwell corrosion inhibitor chemistry
- Protects even in the presence of moisture
- Effective on steels, copper, solder, and multi-metal parts.
- Economical
- Safe and easy to use; no special handling required
- Clean, dry corrosion protection
- Lasts for up to 2 years.
- Available in standard 500 ft. and 3,000 ft. rolls, plus cut-to-length strips and pieces.



Typical Applications

- Tubing
- Piping
- Hollow rods, machined parts
- Military equipment
- Gun barrels, spare parts

Guidelines for Use

Packaging personnel should always wear gloves while handling metal parts. Parts should be clean and free of fingerprints before wrapping. Package your clean products as quickly as possible.
Cut a length of wire strip equal to the length of the pipe. Seal or cap the ends of the pipe. The protective vapors will fill the void space, protecting metal for up to 24 months.

Typical Properties

Diameter.....3 mm

Color.....Daubert® blue

Packaging.....500 ft. roll (4.4. lbs.)
3,000 ft. roll (15.4 lbs.)

Storage

Store unused wire in a cool, dry place, away from direct sunlight.
